

Theatrical Photography by Paula Buzenius

Place your order now to receive your Photo DVD for the Newman Smith High School Dress Rehearsal performance of Grease!

Paula Buzenius is an award winning photographer accomplished in photographing theatrical performances live without flash. This allows the director's vision to be captured in print, depicting the action of the performers bathed in the brilliance and mood of the lighting design for each scene.

Each DVD will contain between 100 to 200, copyright free photographs. Efforts are made to photograph not only the main characters but the chorus members as well. These photographs are in high resolution jpg format and can be brought into any photography print store for processing. Just choose which ones you would like to have printed. Or, if you have your own computer and photo printer they can be printed at home.

By purchasing the photo DVD you will not only be able to acquire prints in any size you choose but you will also be able to have them printed on merchandise such as coffee mugs, tote bags, tee shirts, or calendars. You can then keep these or give them away as gifts.

Most importantly, you can use the high resolution images for your own theatrical resume's.

There is also slideshow software on the market that enables new dvd's to be created with these photo files and your selected music file which can then be viewed on your TV via your dvd player. (If this is unfamiliar to you and you would like one of these, it is also offered on the order form.)

Order form

Name: _____

Email Address: _____ Phone: _____

Address, State Zip: _____

	Quantity	Cost per item	Total
